Education

Ph.D. Electrical Engineering, University of Southern California, December 2010

M.S. Electrical Engineering, University of Southern California, May 2007

B.S. Electrical Engineering, Tufts University, *Summa Cum Laude*, May 2004

Research Experience

Professor 2023–present
University of Michigan Ann Arbor, Michigan
Professor in the Computer Science and Engineering Department, University of Michigan.

Professor 2023–present
University of Michigan Ann Arbor, Michigan
Professor in Psychiatry (courtesy), University of Michigan.

Associate Professor 2018–2023
University of Michigan Ann Arbor, Michigan
Associate Professor in the Computer Science and Engineering Department, University of Michigan.

Assistant Professor 2012–2018
University of Michigan Ann Arbor, Michigan
Assistant Professor in the Computer Science and Engineering Department, University of Michigan.

Postdoctoral Research Associate 2011
University of Southern California Los Angeles, California
Researcher in the Signal Analysis and Interpretation Lab (SAIL) under the direction of Prof. Shrikanth Narayanan. Current research focuses on the development and evaluation of an Embodied Conversational Agent (ECA) for interactions with children with autism and on modeling inter-utterance temporal emotional dynamics.

Herbert Kunzel Engineering Scholar 2010–2011
University of Southern California Los Angeles, California
Student in the Signal Analysis and Interpretation Lab (SAIL) under the direction of Prof. Shrikanth Narayanan and the Interaction lab under the direction of Prof. Maja Matarić. Current research focuses on quantification of emotion using multi-dimensional interpretable representations.

Intel Foundation Fellow 2008–2010
University of Southern California Los Angeles, California
Student in the Signal Analysis and Interpretation Lab (SAIL) under the direction of Prof. Shrikanth Narayanan and the Interaction lab under the direction of Prof. Maja Matarić. Research focused on creating generative models for classifying affective utterances using categorical labels.

Herbert Kunzel Engineering Scholar 2007–2008
University of Southern California Los Angeles, California
Student in the Signal Analysis and Interpretation Lab (SAIL) under the direction of Prof. Shrikanth Narayanan and the Interaction lab under the direction of Prof. Maja Matarić. Research focused on the human perception of robotic and simulated avatar emotional expressions.

NSF Graduate Fellow 2004–2007
University of Southern California Los Angeles, California
Student in the Signal Analysis and Interpretation Lab (SAIL) under the direction of Prof. Shrikanth Narayanan and the Interaction lab under the direction of Prof. Maja Matarić. Research focused on developing emotion tracking algorithms to determine the state of a user within the context of a human-robot interaction.

Research Assistant: CRA-W Internship Summer 2003
Tufts University Medford, MA
With Professor Lenore Cowen of Tufts University, analyzed adenocarcinoma microarray data to determine if the data could be clustered into groups representative of survival.

Research Assistant: Nerd Girls Fall 2003–Spring 2004
Tufts University Medford, MA
Designed a Solar Car’s control system and solar panel array. Participated in engineering outreach program designed to provide positive role models for young girls interested in science & engineering.

Research Assistant: Robotics Academy Fall 2003–Spring 2004
Tufts University Medford, MA
Developed a team of autonomous mobile and stationary robots capable of locating and localizing on a spot of light. Participated in an outreach program designed to introduce elementary school age children to engineering.

Research Assistant: Beta-Wrap Summer 2002
Tufts University Medford, MA
Worked with Professor Lenore Cowen’s research team and analyzed the validity of a set of beta helical proteins proposed by an opposing paper.

Teaching Experience

Introduction to Artificial Intelligence Fall 2012, Fall 2013, Fall 2014, Fall 2016, Winter 2017, Winter 2018, Fall 2019, Fall 2020, Fall 2021
University of Michigan Ann Arbor, MI
Department of Computer Science and Engineering

Applied Machine Learning for Affective Computing Winter 2020, Winter 2021, Winter 2022
University of Michigan Ann Arbor, MI
Department of Computer Science and Engineering

Intelligent Interactive Systems Winter 2014, Winter 2015
University of Michigan Ann Arbor, MI
Department of Computer Science and Engineering

Human-Centered Computing Winter 2013
University of Michigan Ann Arbor, MI
Department of Computer Science and Engineering

**Applications of Machine Learning in
Human Centered Computing**
University of Michigan
Department of Computer Science and Engineering

Winter 2012
Ann Arbor, MI

**Teaching Assistant: Introduction to
Probability and Statistics for Electrical
Engineering**
University of Southern California
Ming Hseih Department of Electrical Engineering

Spring 2010
Los Angeles, CA

Journal Publications

Tutorials

1. “The Ambiguous and Uncertain World of Emotion Representation.” Vidhyasaharan Sethu, Julien Epps, Nicholas Cummins, Shrikanth Narayanan, **Emily Mower Provost**, Carlos Busso. Affective Computing and Intelligent Interaction (ACII) 2019.
2. “Speech-Centered Mobile Health Monitoring.” **Emily Mower Provost**. Speech Science and Technology (SST), December 2018.
3. “Computational Models for Audiovisual Emotion Perception.” **Emily Mower Provost** and Carlos Busso. Interspeech, Singapore, September 2014.

Invited Talks

1. **Keynote:** “From Speech to Emotion to Mood: Mental Health Modeling in Real-World Environments.” Signal Analytics for Motor Speech (SAMS) workshop. American Speech and Hearing Association (ASHA). February 2024.
2. **Keynote:** “From Speech to Emotion to Mood: Mental Health Modeling in Real-World Environments.” Empirical Methods in Natural Language Processing (EMNLP). December 2023.
3. “Automatic Speech Modeling for the Detection and Measurement of Disease Severity.” Research Symposium: Advances in Speech Biomarkers for Monitoring Neurological and Mental Health. American Speech and Hearing Association (ASHA) Convention. November 18, 2023.
4. **Keynote:** “From Speech to Emotion to Mood: Mental Health Modeling in Real-World Environments.” IEEE Workshop on Applications of Signal Processing to Audio and Acoustics (WASPAA). October 23, 2023.
5. “Automatically Measuring Emotion from Speech: New Methods to Move from the Lab to the Real World.” Data Science Discipline Fall Symposium. Procter and Gamble. October 19, 2022.
6. “From Speech to Emotion to Mood: Mental Health Modeling in Natural Environments.” Biostatistics and Data Science (BADs) Seminar, The University of Texas Health Science Center at Houston. April 26, 2022.
7. “Automatically Measuring Emotion from Speech: New Methods to Move from the Lab to the Real World.” Johns Hopkins University. December 6, 2021.
8. “Modeling Emotional Speech in the Real World.” Meta (FB) Speech & Audio Summit. December 3, 2021.

9. **Keynote:** “Modeling Emotional Speech in the Real World.” 5th International Workshop on Multimodal Analyses enabling Artificial Agents in Human-Machine Interaction, Affective Computing and Intelligent Interaction (ACII). September 28, 2021
10. “Automatically Measuring Emotion from Speech: New Methods to Move from the Lab to the Real World.” Emory University. September 3, 2021.
11. **Keynote:** “Modeling Speech in the Real World: Detecting Mood Severity via Affective Computing.” ACL2021 Multimodal AI Workshop. June 6, 2021.
12. “Modeling Speech in the Real World: Detecting Mood Severity via Affective Computing.” Behavioral Research In Technology and Engineering (BRiTE) Center, University of Washington. May 19, 2021.
13. “Human-Centered Computing: Using Speech to Understand Behavior.” Society for Affective Science, Flash Talk. St. Louis, Missouri. April 16, 2021.
14. “Modeling Speech in the Real World: Detecting Mood Severity via Affective Computing.” Amazon. Seattle, WA. January 31, 2020.
15. “Modeling Speech in the Real World: Detecting Mood Severity via Affective Computing.” MISC Seminar. University of Michigan, Ann Arbor, MI. December 12, 2019.
16. “Human-Centered Computing: Using Speech to Understand Behavior.” ASAPP, New York, New York. October 18, 2019.
17. “Human-Centered Computing: Using Speech to Understand Behavior.” CHEPS Seminar. University of Michigan, Ann Arbor, MI. October 7, 2019.
18. “Human-Centered Computing: Using Speech to Understand Behavior.” CS Kickstart. University of Michigan, Ann Arbor, MI. August 25, 2019.
19. “Human-Centered Computing: Using Speech to Understand Behavior.” University of Texas, Dallas. June 18, 2019.
20. “Human-Centered Computing: Using Speech to Understand Behavior.” Language Technologies Institute (LTI) Colloquium, Carnegie Mellon University. February 22, 2019.
21. “Human-Centered Computing: Using Speech to Understand Behavior.” University of New South Wales (UNSW). January 2019.
22. **Keynote:** “Human-Centered Computing: Using Speech to Understand Behavior.” MIND Summer School, Dartmouth. August 2018.
23. “Human-Centered Computing: Using Speech to Understand Behavior.” Cogito Presents: Behavioral Signal Processing and Machine Learning. March 2018.
24. “Human-Centered Computing: Using Speech to Understand Behavior.” Invited flash talk, Ada Lovelace Opera: A Celebration of Women in Computing. November 16, 2017.
25. **Plenary:** “Human-Centered Computing: Using Speech to Understand Behavior.” Frederick Jelinek Memorial Summer Workshop. August 4, 2017.
26. “Human Behavior Understanding and Engineering: A Partnership.” Women in Data Science (WiDS) Seminar. February 3, 2017.
27. “Human-Centered Computing: Using Speech to Understand Behavior.” Michigan Institute for Data Science (MIDAS) Seminar. January 27, 2017.
28. **Keynote:** “Human-Centered Computing: Using Speech to Understand Behavior.” Emotion in the Wild Workshop, International Conference on Multimedia Interaction. November 12, 2016.
29. “Human-Centered Computing: Using Speech to Understand Behavior.” Invited talk, Center for Autism Research (CAR), University of Pennsylvania. October 5, 2016.
30. “Affective Computing: Approaches to Understand Emotion and Mood.” Invited flash talk, Society for Affective Science (SAS), Chicago, IL. March 18, 2016.

31. "Human-Centered Computing: Using Speech to Understand Behavior." Institute of Research in Cognitive Science Colloquium, University of Pennsylvania. February 19, 2016.
32. "Human-Centered Computing: Using Speech to Understand Behavior." Language Technologies Institute (LTI) Colloquium, Carnegie Mellon University. October 30, 2015.
33. "Human-Centered Computing: Using Speech to Understand Behavior." IBM, Yorktown, NY. November 17, 2014.
34. "Human-Centered Computing: Using Speech to Understand Behavior." Massachusetts Institute of Technology, Boston, MA. October 24, 2014.
35. "Human-Centered Computing: Using Speech to Understand Behavior." Massachusetts General Hospital, Boston, MA. October 23, 2014.
36. "Human-Centered Computing: Using Speech to Understand Behavior." SoarTech, Ann Arbor, MI. April 25, 2014.
37. "Human Behavior Understanding and Engineering: A Partnership." Women in Computing Lecture, Oakland University. February 19, 2014.
38. "Human Behavior Understanding and Engineering: A Partnership." CCN Seminar Series, Ann Arbor, MI. January 31, 2014.
39. "Emotions in Engineering: Uncovering Structure in Emotional Speech." University of Texas, Dallas. January 27, 2014.
40. "Emotions in Engineering: Uncovering Structure in Emotional Speech." SRI Sarnoff, Princeton NJ. December 12, 2013.
41. "Human Behavior Understanding and Engineering: A Partnership." IEEE Professor Seminar Series, Ann Arbor, MI. October 30, 2013.
42. **Keynote:** "Human Behavior Understanding and Engineering: A Partnership." 7th Annual Prechter Lecture, Ann Arbor, MI. October 28, 2013.
43. "The Computer-Human Interface and Mood Disorders." National Network Depression Center Conference, Ann Arbor, MI. October 8, 2013.
44. "Emotions in Engineering: Uncovering Structure in Emotional Speech." Microsoft Research, Redmond, WA. May 22, 2013.
45. "Using Emotional Noise to Uncloud Audio-Visual Emotion Perceptual Evaluation." University of Michigan Workshop on Data Mining, University of Michigan, Ann Arbor, MI. April 24, 2013.
46. "Emotions in Engineering: Uncovering Structure in Emotional Speech." Tufts University, Medford, MA. March 28, 2013.
47. "Human Behavior Understanding and Engineering: A Partnership." SIPI: 2000 and Beyond. Signal Processing Institute, University of Southern California. December 2, 2012.
48. "Emotions in Engineering: Methods for the Interpretation of Ambiguous Emotional Content." University of Wisconsin, Madison. October 17, 2012.
49. "Emotions in Engineering: Methods for the Interpretation of Ambiguous Emotional Content." Computer Science for High School (CS4HS), University of Michigan. August 21, 2012.
50. "Emotions in Engineering: Methods for the Interpretation of Ambiguous Emotional Content." Prechter Seminar, Center for Depression, University of Michigan. June 27, 2012.
51. "Emotions in Engineering: Methods for the Interpretation of Ambiguous Emotional Content." Northwestern University. May 14, 2012.
52. "Seeking Information in Emotion: Techniques and Challenges in the Modeling of Human Emotion Perception." Sensor Information Estimation and Exploitation (SIEEE) Workshop. University of Michigan. April 16, 2012.

Sponsored Projects

1. “Detecting dynamic fluctuations in emotion, mood, and functioning: A digital phenotyping approach to clinical monitoring in bipolar disorder”, NIMH; M. McInnis (PI), E. Mower Provost (PI), S. Sperry (co-PI), 2024-2029).
2. “A smartwatch-based approach to monitoring emotion in bipolar disorder”, (University of Michigan, E. Mower Provost (PI), M. McInnis (co-I), S. Sperry (co-I), 2023)
3. “RI: Small: Advancing the Science of Generalizable and Personalizable Speech-Centered Self-Report Emotion Classifiers”, (NSF; RI-2230172, E. Mower Provost (PI), 2022-2025)
4. “SaTC-EDU: Identifying Educational Conceptions and Challenges in Cybersecurity and AI The goal of this research is to create new coursework at the overlap of artificial intelligence and cybersecurity”, (NSF; EAGER-2039445, E. Mower Provost (co-I), 2020-2022)
5. “Emotion Recognition on Smartphones: Towards ‘In the Wild’ Emotion Data Collections”, (Cisco Systems, E. Mower Provost (PI), 2020-2021).
6. “RI: Small: Speech-Centered Robust and Generalizable Measurements of ”In the Wild” Behavior for Mental Health Symptom Severity Tracking”, (NSF; RI-2006618, E. Mower Provost (PI) 2020-2023).
7. “Precision Health Investigator Award”, (University of Michigan, E. Mower Provost (PI) and M. McInnis (co-I), 2019).
8. “CAREER: Automatic Speech-Based Longitudinal Emotion and Mood Recognition for Mental Health Monitoring and Treatment”, (NSF; CAREER-1651740, E. Mower Provost (PI) 2017-2022).
9. “Multimodal Sensing of Human Behavior”, (Toyota Research Institute; E. Mower Provost (PI), R. Mihalcea (co-PI), M. Burzo (co-PI), 2017-2020).
10. “R01: Predicting Suicide: A Longitudinal Analysis of Speech Patterns in a High Risk Sample”, (NIMH; H. Schatten (PI), E. Mower Provost (PI), Ivan Miller (PI), Michael Arney (co-PI), Melvin McInnis (co-PI), Gary Epstein-Lubow (co-PI), Richard Jones (co-PI), 2016-2021).
11. “Digital Advisor”, (IBM, S. Singh (PI), E. Mower Provost and others (co-PIs), 2016-2018).
12. “Modeling Mood Affected Audio-Visual Emotion Perception: A Transformative Approach to Understanding Mood Disorders.” (MICHR, E. Mower Provost (PI), 2014-2016).
13. “R34: Longitudinal Voice Patterns in Bipolar Disorder”, (NIMH; M. McInnis (PI), E. Mower Provost (co-PI), M. Cafarella (co-PI), 2013-2016).
14. “RI: Small: Collaborative Research: Exploring Audiovisual Emotion Perception using Data-Driven Computational Modeling” (NSF; RI-1217183; E. Mower Provost (PI), C. Busso (co-PI, UT Dallas), 2012-2014).

Honors and Awards

Best of IEEE Transactions on Affective Computing 2021 Paper Collection (2022)
University of Michigan EECS Outstanding Achievement Award (2022)
Toyota Faculty Scholar Award (2020-2023)
Precision Health Investigator Award (2019)
NSF CAREER Award (2017)
IEEE Senior Member (2017)
Oscar Stern Award for Depression Research (2015)
Best Student Paper, ACM Multimedia (2014)
Herbert Kunzel Engineering Fellowship (2010-2011)
Achievement Rewards For College Scientists (ARCS 2009)

Emotion Challenge, Classification Challenge Winner, International Speech Communication Association Conference (InterSpeech 2009)

Intel Foundation Fellowship (2008-2010)

Herbert Kunzel Engineering Fellowship (2007-2008)

NSF Graduate Student Fellowship (2004-2007)

Graduated summa cum laude, Dean's list all semesters

Received Undergraduate Thesis Honors (2004)

Tau Beta Pi (2004)

Undergraduate Computing Research Association Distributed Mentor Project, CRA DMP (Summer 2003)

Eta Kappa Nu- Electrical and Computer Engineering Honor Society (2003)

Students Advised

Ph.D. Students:

Matthew Perez, Estimated 2023.

Amrit Romana, Estimated 2024.

Minxue Niu, Estimated 2025.

James Tavernor, Estimated 2026.

Aneesha Sampath, Estimated 2028.

Graduated Ph.D. Students:

Mimansa Jaiswal (2023)

Zakariah Aldeneh (2020, Apple)

John Gideon (2019, Toyota Research Institute)

Biqiao Zhang (2018, Facebook)

Duc Le, (2017, Facebook)

Yelin Kim (2016, Amazon)

Additional PhD Committees:

Patrick Wu, (UM, Political Science), 2021

Jeeheh Oh, (UM, CSE), 2021

Katie Skinner (UM, NAME), 2019

Scott Reed (UM, CSE), 2016

Rahul Jha (UM, CSE), 2015.

Catharine McGhan (UM, Aeronautical Engineering), 2014.

Amjad Abu Jbara (UM, CSE), 2013.

External PhD Evaluator/PhD Jury:

Sina Alisamir, Université Grenoble Alpes (UGA), 2023

Rachid Riad, École normale supérieure Paris-Saclay (PhD Jury), 2022

Service

University of Michigan

Computer Science and Engineering (CSE) Departmental Service

Associate Chair for Graduate Affairs, 2022-present

Graduate Program, Chair, 2020-present

CSE Executive Committee, Committee Member, 2019-2021

Graduate Program, Committee Member, 2015-2017, 2018-2020

Graduate Admissions, Committee Member, 2012-2015

University of Michigan Service

Precision Health, Racial Equity Task Force, 2020

ADVANCE Program, 2019-present

Faculty Advisor

Girls in Electrical Engineering and Computer Science (GEECS), Winter 2012 - 2018

National Service

Defense Science Study Group (DSSG), 2024-2026

Elected Committees

International Speech Communication Association (ISCA), Fall 2023 - Present

IEEE SPS SLTC (Spoken Language Technical Committee): Speech Production and Perception, Fall 2015 - December 2018

Steering Committees

ACM International Conference on Multimodal Interaction (ICMI), 2019 - present

Organization Committees

International Conference on Multimodal Interaction (ICMI) 2024: Family Co-Chair

International Conference on Multimodal Interaction (ICMI) 2023: Tutorial Co-Chair

Affective Computing and Intelligent Interaction (ACII) 2021: Program Co-Chair

International Conference on Multimodal Interaction (ICMI) 2021: Workshop Co-Chair

International Conference on Multimodal Interaction (ICMI) 2020: Doctoral Consortium Co-Chair

Workshop for Young Female Researchers in Speech Science & Technology 2019, Co-organizer

International Conference on Multimodal Interaction (ICMI) 2018: Program Co-Chair

Workshop for Young Female Researchers in Speech Science & Technology 2018, Co-organizer

Affective Computing and Intelligent Interaction (ACII) 2017: Program Co-Chair

Face and Gesture 2017: Demo Co-Chair

International Conference on Multimodal Interaction (ICMI) 2016: Sponsorship Co-Chair

Interspeech 2016: Publicity Co-Chair

Special Session and Workshop Committees

Co-organizer *Young Female Researchers in Speech Workshop (YFRSW)* at Interspeech 2018, 2019.

Co-organizer *Women in Speech (WIS) Panel* at Interspeech 2018 (September 2018).

Co-organizer (with Nicholas Cummins, Julien Epps, Thomas Quatieri, Stefan Scherer) *Clinical and Neuroscience-Inspired Vocal Biomarkers of Neurological and Psychiatric Disorders* at Interspeech 2016 (September 2016).

Co-organizer (with Laurence Devillers, Bjoern Schuller, Peter Robinson, Joseph Mariani) *ETHI-CA² 2016: ETHics In Corpus collection, Annotation and Application* at Language Resources and Evaluation Conference (May 2016).

Co-organizer (with Frank Broz and Marek Michalowski) *It's All In the Timing: Representing and Reasoning About Time in Interactive Behavior* at the AAAI Spring Symposium, Stanford University, Palo Alto, CA (March 2010).

Co-organizer (with Alan Wagner, Rosemarijn Looije, Maxim Makatchev, and Marek Michalowski) *HRI Young Pioneers Workshop* at the IEEE International Conference on Human-Robot Interaction (HRI), La Jolla, CA (March 2009).

Advisory Board

NSF CCRI: ENS: Next Generation Tools for Spoken Language Science & Technology, 2021-present

Associate Editor

IEEE Transactions on Affective Computing, 2019-present

IEEE Open Journal of Signal Processing, 2019-present

Computer Speech and Language, 2017-2019

ACM Transactions on Multimedia, 2016-2018

Editorial Board

Affective Science (Society for Affective Science, SAS)

Engineering Outreach

Presentation to REU students (talk) at Texas A&M, June 14, 2023

MaCSS Scholars (talk) at University of Michigan, May 22, 2023

EECS 110 Guest Lecture at University of Michigan, March 15, 2022

ENGR 151 Guest Lecture at University of Michigan, November 12, 2020

CS-Kickstart (talk) at University of Michigan, 2020

Girls Who Code (keynote) at University of Michigan, 2020

AI4All (talk) at University of Michigan, 2020

CS-Kickstart (keynote) at University of Michigan, 2019

Co-organizer *Young Female Researchers in Speech Workshop (YFRSW)* at Interspeech 2018 (September 2018).

Co-organizer *Women in Speech (WIS) Panel* at Interspeech 2018 (September 2018).

Girl up Michigan, Panelist (March 2018)

Girls in EECS (gEECS) Faculty Advisor (2012 – present)

Interview with Iridescent Learning, (December 2017)

Invited flash talk, Ada Lovelace Opera: A Celebration of Women in Computing (November 16, 2017)

Girls Encoded – Presentation to the parents of high school girls encouraging research in human-centered computing (November 8, 2014)

Tech Day Talk – Presentation to high school students encouraging research in human-centered computing (September 28, 2013)

Girls' Research Engineering and Technology (GREAT) Day Talk (April 13, 2013)

Tech Day Talk – Presentation to high school students encouraging research in human-centered computing (September 29, 2012)

Computer Science for High School (CS4HS), University of Michigan (August 21, 2012)

Participated in a career panel. Described careers in engineering to a group of high school girls as a part of the Iridescent Technovation Challenge. (March 31, 2011)

Organized and presented at a USC Robotics Workshop for local 4th and 5th graders (October 10, 2008)

Presentation to Germantown, Philadelphia 7th Grade English Class (December 21, 2007)

Presentation to ENGR 499 Engineering Science and Systems: From Humans to Robots (November 5, 2007)

Camp Geog: Summer geography camp, SUNY Albany, Albany, NY (August 9, 2007)

TRiO Program: College, Career and Information Day, University of Southern California, Los Angeles, CA (March 24, 2007)

TRiO Program: Upward Bound Math/Science, University of Southern California, Los Angeles, CA (October 14, 2006)
